

## **INSTRUCTION**

### **SUBJECT: Evaluation of the Instructional Program**

The County Board of Education and County Superintendent of Schools recognize that they are accountable to the students, parents/guardians, and community for conducting a continual evaluation of the curriculum and the instructional program.

The County Superintendent of Schools or designee shall review the effectiveness of County Office of Education programs in meeting desired outcomes. He/she shall provide regular reports on student progress toward established standards of expected achievement in each grade level in each area of study. Based on these evaluations, the County Office of Education shall take appropriate actions to maintain the effectiveness of programs and, as needed, to improve the quality of education that County Office of Education students receive.

### **Categorical Program Monitoring**

The County Office of Education shall cooperate with the California Department of Education in the conduct of on-site monitoring to ensure that all County Office of Education's categorical programs comply with federal and state laws and regulations. The County Superintendent or designee shall report to the County Board of Education regarding the results of these reviews.

On an ongoing basis, the Superintendent or designee shall conduct a district self-evaluation which may utilize tools developed by the district or the CDE to ensure compliance of district categorical programs with legal requirements.

### **Evaluation of Consolidated Categorical Programs**

The County Office of Education shall conduct annual evaluations to determine whether categorical programs funded through the state's consolidated application are supportive of the core curriculum and are effective in meeting the needs of the students they are intended to serve. As a basis for this evaluation, the County Office of Education shall recommend specific, measurable criteria which shall be used at each school and at the program-wide level to evaluate student achievement and the effectiveness of each consolidated program. These criteria shall include, but not necessarily be limited to, progress toward goals contained in the school's single plan for student achievement and progress of the total student population and each numerically significant subgroup toward growth targets on the statewide Academic Performance Index.

If desired, each school may establish additional evaluation criteria beyond these program-wide criteria. Evaluations conducted for each school shall be presented annually to the County Superintendent.
