

INSTRUCTION

SUBJECT: Equipment, Books and Materials

The County Board of Education and County Superintendent of Schools recognize that student learning is enhanced when they have sufficient access to high-quality textbooks, equipment and other instructional materials for each of the subjects they are studying. To adequately support the Board-approved curriculum, instructional materials must also be up to date.

The County Superintendent or designee shall develop procedures for determining the sufficiency of County Office of Education instructional materials in providing accurate, current information and ensuring that students have access to standards-based materials. When new instructional materials have been chosen in accordance with the County Office of Education's selection and evaluation policy, the County Office of Education shall make final decisions regarding their purchase.
