The California Child Care Initiative Project (CCIP) strengthens child care for California families. We recruit new home-based providers and support current providers with no-cost training, resources, and community connections.

### FOR NEW PROVIDERS

We'll help you launch and grow your home-based child care business. As a CCIP participant, you will be provided 25 hours of training and educational items to start your Family Child Care Home (FCCH) business.

### FOR EXISTING PROVIDERS

We'll support you with training, resources, and community connections. All training and support will help you grow your FCCH business and support the children and families in your program.
