AI READY, AI LITERATE
Building Coherence Across Classrooms

Join Ken Shelton for an engaging and thought-provoking two-day workshop where school and district teams will explore what it means to understand and integrate AI across grade levels and subject areas. As AI continues to shape the future of education, this session offers a critical opportunity to collaboratively define AI readiness and literacy in ways that are developmentally appropriate and instructionally relevant.

While AI holds incredible potential to increase efficiency in planning, assessment, and workflow, it's essential that this does not come at the expense of meaningful, high-impact teaching and learning. This workshop will guide participants in thoughtfully navigating that balance, ensuring that AI enhances, rather than diminishes, classroom efficacy.

Through hands-on collaboration and guided discussion, teams will build shared definitions, align instructional and leadership practices, and develop practical strategies to ensure coherent and purposeful AI integration in every classroom.

FALL SERIES

Tuesday, October 28, 2025, and Thursday, December 11, 2025
8:30 a.m. – 3:00 p.m.
